

Press Release

New compact Xenoplan 1.3” C-Mount lenses for high-resolution sensors

BAD KREUZNACH, August 4, 2021

Schneider-Kreuznach introduces new, compact Xenoplan lenses.

The three lenses combine the optical design principle of the Componon lenses with the robust and stable mechanics of the Schneider-Kreuznach C-Mount lenses.

They are suitable for high-resolution sensors and from short to very long WD.

The lenses deliver accurate geometrical reproduction and are fully useable even at low light.

The compact design makes the new Xenoplan lenses fit into small spaces. The robust design guarantees a stable image position and long-term durability.

The Xenoplan 2.8/40, Xenoplan 4.0/45 and Xenoplan 4.0/60 lenses are available as of today.

About the Schneider Group:

The Schneider Group specializes in developing, producing and manufacturing high-performance lenses and filter systems for industrial applications, cine and photography. It also offers high-quality precision mechanics and servo hydraulics. The company's main brand "Schneider-Kreuznach" stands for state-of-the-art technology from Germany. The group has been a world market leader in the field of high-performance lenses for many years. The Schneider Group consists of Jos. Schneider Optische Werke GmbH founded in Bad Kreuznach in 1913, and its subsidiaries PENTACON (Dresden), Schneider Optics (New York, Los Angeles), Schneider Asia Pacific (Hong Kong) and Schneider Optical Technologies (Shenzhen). The Schneider Group has around 500 employees worldwide, including 315 at its German headquarters.
