

Press Release

Schneider-Kreuznach offers “Assembled Systems” for Optical Applications

BAD KREUZNACH, July 1, 2021

Schneider-Kreuznach helps customers save time with Assembled Systems.

Choosing the right components for an optical system can be time-consuming and needs know-how. Assembling the parts increases set-up times.

Schneider-Kreuznach now offers to take these efforts over from the customer.

Apart from all parts for Optical Systems, such as Lenses, Filters, Focussing Mounts, Extension Tubes and Camera Adapters, customers can order the complete Assembled System from the manufacturer and thus save precious time.

“Assembled Systems” are available with all Schneider-Kreuznach Components, on request.

About the Schneider Group:

The Schneider Group specializes in developing, producing and manufacturing high-performance lenses and filter systems for industrial applications, cine and photography. It also offers high-quality precision mechanics and servo hydraulics. The company's main brand “Schneider-Kreuznach” stands for state-of-the-art technology from Germany. The group has been a world market leader in the field of high-performance lenses for many years. The Schneider Group consists of Jos. Schneider Optische Werke GmbH founded in Bad Kreuznach in 1913, and its subsidiaries PENTACON (Dresden), Schneider Optics (New York, Los Angeles), Schneider Asia Pacific (Hong Kong) and Schneider Optical Technologies (Shenzhen). The Schneider Group has around 500 employees worldwide, including 315 at its German headquarters.
